REASONS FOR ALLOWANCE

1. Claim 1 is allowed.
2. The following is an examiner's statement of reasons for allowance: The primary reason for the allowance of the claims is a lock device having the combination of a vertical plate stopper supported by a stopper support member for restraining a handle with a controller body having a rectangular parallelepipedal portion with a projecting cylinder in which the handle is removable from an upper end, together with the rectangular plate having a projection and the vertical plate movable in a hole formed in the extension extending from the plate.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Nishimura, Dixon, Kieper, Gaglio and Fraser disclose stoppers on support members that lock valve handles from actuating.
